

Stem Completion

Information Processing: Activating and Engaging, Exploring and Discovering

PROCESS

- Members complete a thought from a prompt. For example: “I believe my culture affects my coworkers by . . .” or “In order to be more inclusive we should . . .”
- Pairs or small groups share and explore meanings from responses to the prompts.
- Small groups summarize and report.

ALTERNATIVES

- Change groups and share again.

TIPS

- Select stems that would be psychologically safe for members to discuss.
