

## People, Place, Thing Cards

### Information Processing: Activating and Engaging

#### PROCESS

- Place cards on each table. These may be postcards of famous people, pictures of places, or pictures cut out from magazines.
- Ask groups to engage in a question regarding the cards. (See alternatives below.)
- Share with large group.

#### ALTERNATIVES

- Put enough place cards on a table so that each person can choose one. Ask a processing question (e.g., “Which picture best describes where you are in your journey right now?”). Ask each person to share his or her response with the group.
- Put one person card on each table and ask the group to fill in the blanks with a stem (e.g., \_\_\_\_\_ is like a facilitator because \_\_\_\_\_ ; \_\_\_\_\_ is not like a facilitator because \_\_\_\_\_ ). Each table shares with the large group.
